

Secure Food Delivery

Versapak manufacture secure, insulated, robust food delivery carriers. Our carriers are Antimicrobial and are made using the highest quality materials. Not only do they ensure the food inside stays fresh and at the correct temperature, but they also incorporate a unique tamper evident locking mechanism to keep the contents secure. This gives your customers peace of mind that their food delivery is safe and tamper free, from the restaurant to their door.

Our new food carriers feature VersaShield Antimicrobial Technology, protecting the internal/external material, handles, locking chamber and zip puller from the colonisation of bacteria.

VersaShield is effective against many known microbes. The technology actively kills bacteria including MRSA, E.coli, mould and fungus, without the need for chemicals or deep cleaning. The living bacteria can no longer colonise or grow and 99.5% of bacteria are eliminated.
